

## Introduction

The aim of *Summer Skillz* is to improve confidence and self-esteem, raise aspirations and promote social inclusion.

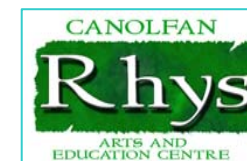

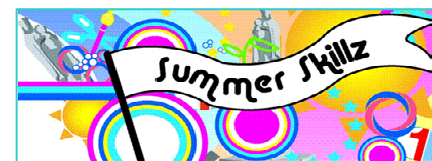

*Summer Skillz* was developed after consultation with young people in Penrhys. Traditionally the Summer months have been focused on fun activities for young people, but many are looking to enter the fields of further education, higher education and employment. *Summer Skillz* was therefore designed to create opportunities for young people to engage in learning opportunities; both formal and informal.

The programme relied heavily on the support of partner agencies who could offer a variety of opportunities in aiming to enhance life chances and opportunities of young people.

We thank all partners for their ongoing support in achieving our aims.
